Books Received 181

Book Reviews 181, 357, 453, 553

Subject Index

Alien specificity
–, on tumor cells 323
Allograft reaction
–, genetic determinants 351
–, hyperacute rejection 351
Allotype
–, Igh-4d 341
–, in tolerance induction 163
Antigen
–, H-2, absence on murine leukemia virus and mouse mammary tumor virus particles 203
–, H-2 and viral, independence 203
Autoimmunity
–, after thymectomy 15
–, autoimmune diseases in mice

β_2-microglobulin gene
–, linkage analysis 449
–, mouse 449

BoLA 423
Bovine major histocompatibility complex
–, mixed lymphocyte reactivity 423

cDNA clone
–, of an H-2K^b-related molecule 383
Cell-mediated cytolysis
–, H-Y-specific 183
Cell-mediated lymphocytotoxicity
–, against class II alloantigens 73
Cloning
–, H-2K^b-related molecule 383
CT alloantigen
–, rats 293
Cytotoxic T cells
–, FMR-specific 429
Cytotoxic T lymphocyte
–, E-molecule-specific 73
–, responses to a BALB/c tumor 263

Dendritic cells 359

Embryo, mouse
–, H-2 effect on 303

Graft-versus-host disease
–, H-2 restriction 527
–, radiation chimeras 527
Gross-virus-induced leukemia
–, expression of histocompatibility antigens 323

H-2 mutant
–, B6.C-H-2^{bm12} 41
–, in vitro selection 253
–, peptide mapping 41

HLA
–, SB antigens 153
HLA-DR antigen 367
–, activation of T cells 309
HLA-Dw5
–, PLT clones 549
Hybrid
–, between human and murine cells 141
Hybridoma-resistant variant cell lines 429

Ia antibody
–, blocking of T-cell proliferation 283
Ia antigen
–, β chain 437
–, expression 507
–, Ia.6-specific antibody 345
–, *I-C* region 345
–, in F_1 hybrid mice 507
–, interlocus cross-reacting 189
–, on thymocytes 169
–, serology 189
–, topology 481
I-A^k antigen 359
–, murine, ontogeny 359
I-C region 345
Idiotype
–, light chain 85
Ig
–, cross-reactive idiotype 85
–, light chain 85
IgG1
–, allotype 341
Interleukin-2 367
Ir gene
–, context of antigen recognition 283

Keyhole limpet hemocyanin 415
–, *Ir* genes 415
–, I-region genetic restriction 415
–, recognition of 415

Langerhans cells 359
Leishmaniasis
–, cutaneous 29
–, in mice 29
Leukemia
–, in AKR mice 169
Ly-4 antigen 535
Ly-5 alloantigen
–, biochemistry 101

Ly-m11 alloantigen
–, body fluids 445
Ly-m20
–, antigen 3

MHC
–, chicken 393
MHC alloantigen
–, class II, rat 541
Minor H antigen
–, H-Y, H-3, proliferative response 241
Mixed lymphocyte reaction
–, HLA-DR antigens 309
Mls locus 3
Monoclonal antibody
–, against class I H-2 molecules 177
–, against Ia antigens 53
–, defining Ly-m20 3
–, H-2, use for in vitro selection 253
–, H-2-specific 497
–, *HLA* region 403
–, H-Y-specific 183
–, Ia^k-specific 481
–, xenoantibody Q6/64 403

Popliteal node test
–, minor (non-H-2) H antigens 63
Primed lymphocyte typing (PLT)
–, HLA-Dw5 549

Qa-1^a alloantigen
–, biochemistry 455
Qa-2 alloantigen
–, biochemistry 129

Recombination
–, separating $A_\alpha A_\beta$ from E_β, Ia antigens 273
Response
–, proliferative, to H-Y and H-3 241
RT1.B alloantigen
–, serological characterization 541

SB antigen 153
Skin-specific antigen 517
Superoxide dismutase, mitochondrial
–, location on chromosome 12 231
Suppression
–, "acceptor cells" 117
Suppressor factors 117
–, GT-specific 221
Suppressor T cells 117
–, GT-specific 221
–, human allogeneic 107

T cells
–, cytotoxicity 367
–, proliferation 367
T-cell clones
–, KLH-specific 469
–, murine 415
–, PLT-derived 549
T-cell proliferation
–, context of antigen recognition 283
–, human, control of 107, 117
–, SB antigens 153
Th-1 antigen 535
T lymphocyte
–, proliferation 469
Tolerance
–, low-zone 163
Tumor cell line
–, H-$2D^b$ 429

"White grafts"
–, genetic determination 351

Xenoantiserum
–, against HLA 141
